

**School of Chemistry and Biochemistry,
TIET, Patiala Applied Chemistry (UCB008)
(REVISION INSTRUCTIONS)**

1. Please note we have completed FOUR tutorial sheets as of now. These are
 - a) General Tutorial Sheet – Based on Practical
 - b) Beer's Lambert Law
 - c) Atomic Spectroscopy – I
 - d) Atomic Spectroscopy – II
 2. This week there will be no tutorial sheet.
 3. This week is for the revision of the class concepts and previous tutorial sheets. Students are expected to take a look at tutorial sheets and class content of previous weeks and ask for the clarification of the content that is not clear to them.
 4. After students have been cleared of the concepts / tutorial sheets of previous weeks, if time permits, the tutorial teacher will ask you the concept from students one by one.
 5. Tutorial teacher may also ask you to discuss given topic/ topics in groups (via Break out rooms on ZOOM Platform) and ask one member from each group to summarize whatever has been discussed in the break out room.
